Assignment: Ecommerce Website

Documentation

Description About the Project:

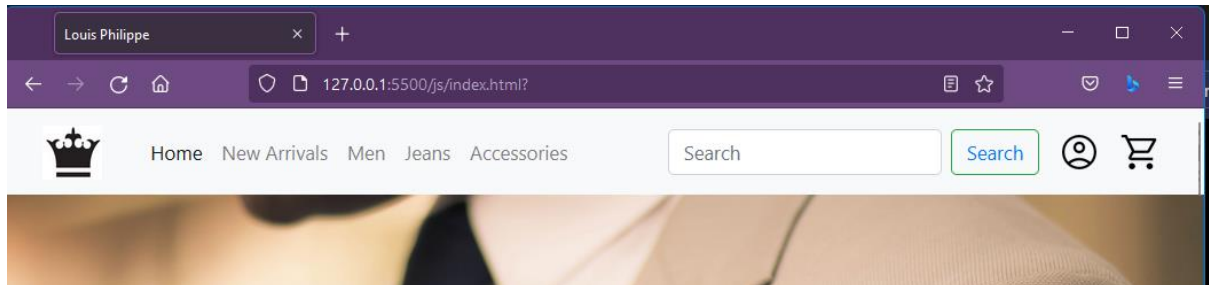

Louis Philippe is a shopping store both has a online and offline store, Our project focuses on the replica of it.

Here we have created a replica of Louis Philippe website, under which user can view the list of product, accessories, formal shirts, belts, wallets and so on.

The main file in our project is under javascript folder called index.html

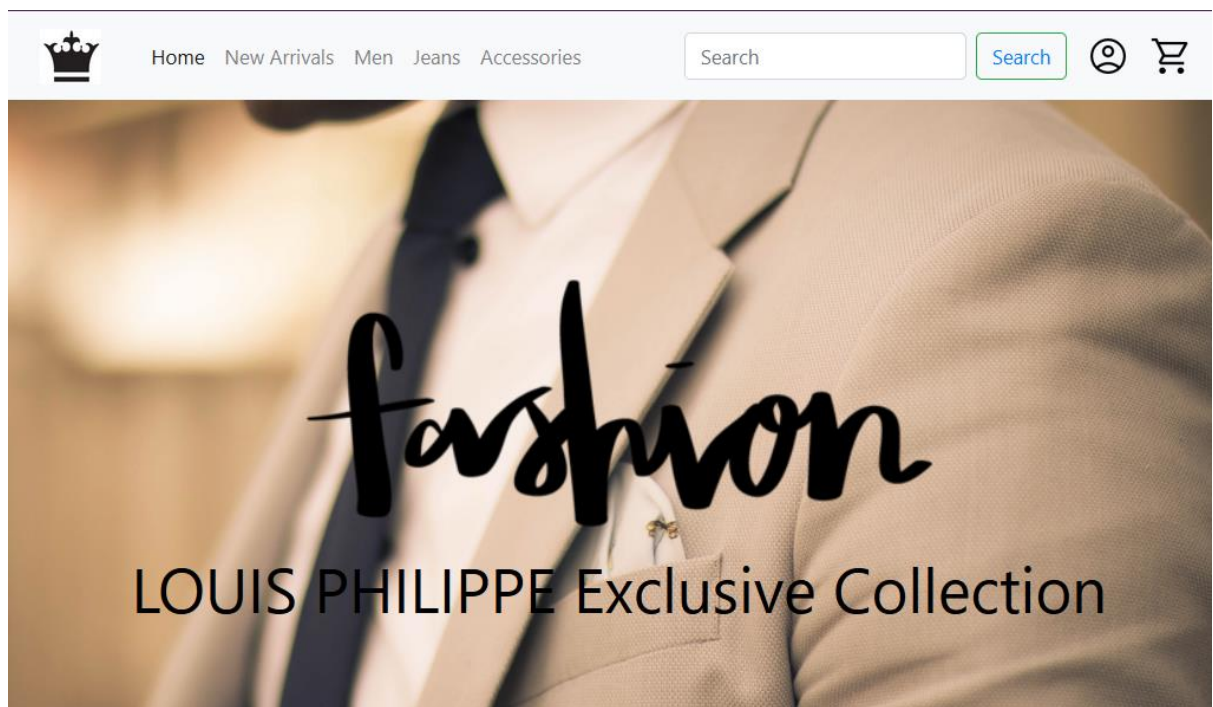

Let's walk into the screenshot of our project.

First the Nav Bar in our project.

1. The Logo is in the left, which is act as a home page.
2. Under Home navbar, we have our home page.
3. Under Men category, we have all the product related to men related.
4. Under Jeans we have jeans, Louis Philippe jeans will be present.
5. Under Accessories navbar, we have all the accessories from the Louis Philippe brand.

6. Under search, we can search for the product where the product are available with the matching search character, We will improve this feature in the coming weeks.
7. Under Profile logo, we have our signup and signin pages.
8. Under cart, we will be having our product which are saved to the cart.

LOUIS PHILIPPE BROWN BELT

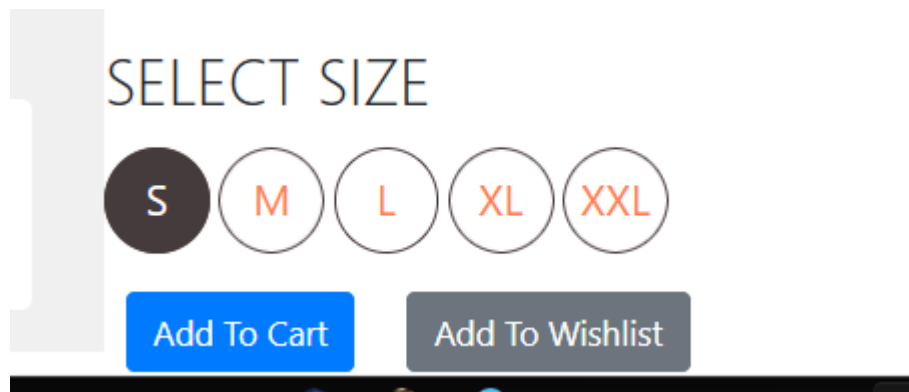

We have a section called best selling, where the product will be displayed which are best selling in current month.

If we click on the name of the product, the description page of will be shown.

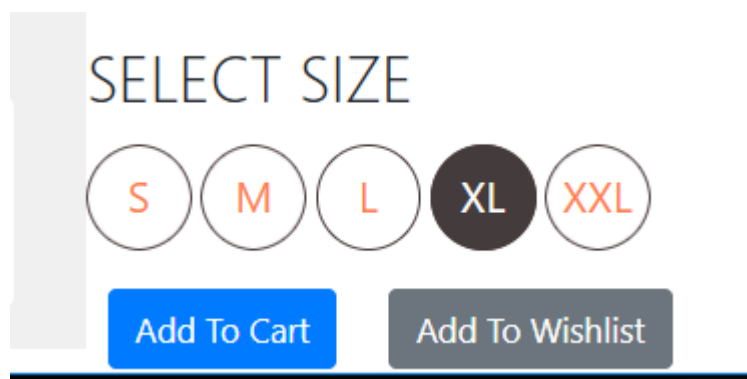

Upon clicking on the name of the product, we will be redirected to the product description page, where we can select the size and can see the various images which are listed here.

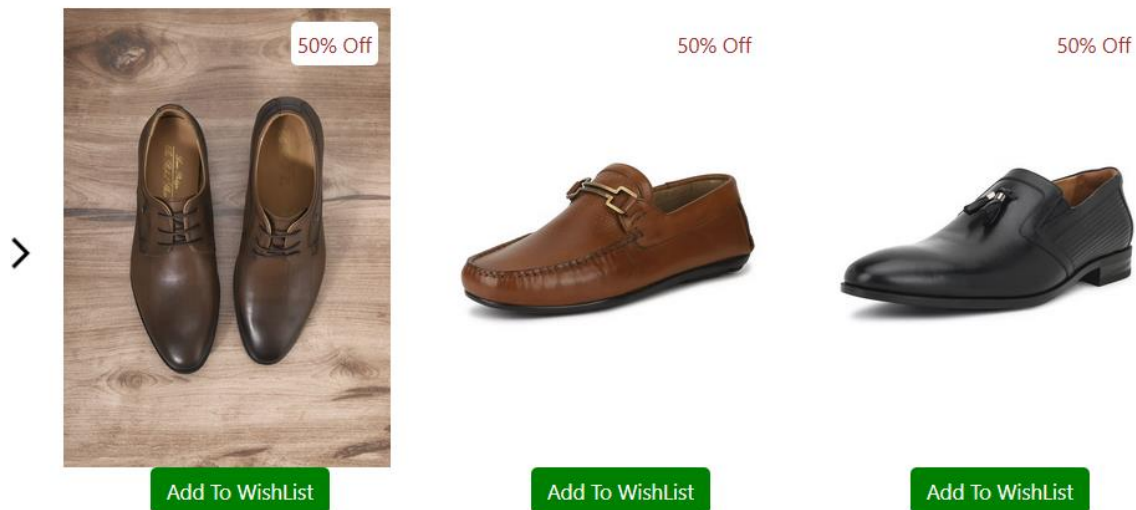

Size can be changed with help of event listener under javascript

If we scroll down a bit, we can see the category of the product which are available under the product description page.

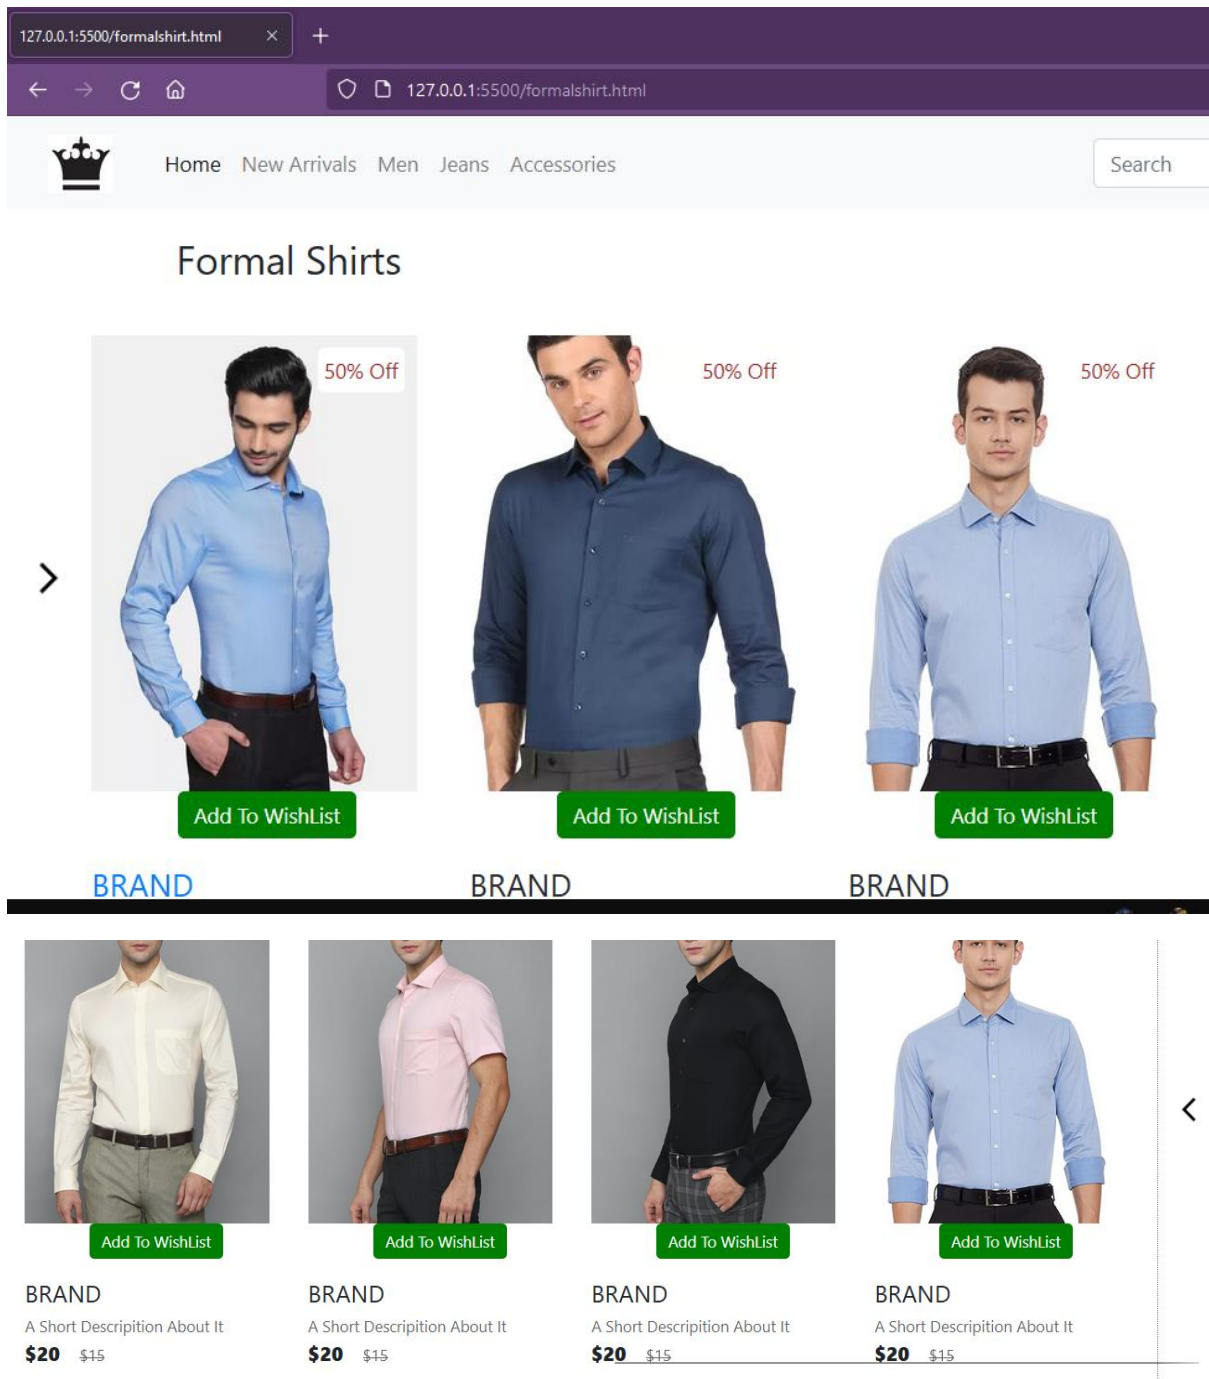

Shoes

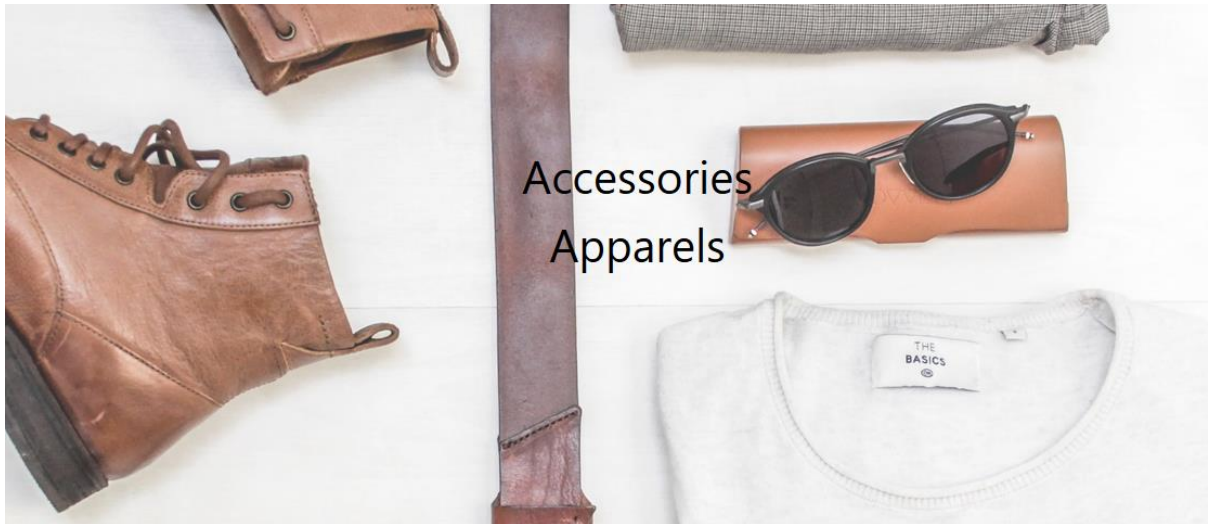

Back on the home page, if we scroll down a bit, we can see the category section which is divided into columns by using css.

Upon click on Formal Shirt apparels, we will be redirecting to formal shirt page, under which we have all formal shirts.

This is a formal page section, we do have a category section, let us have a look there.

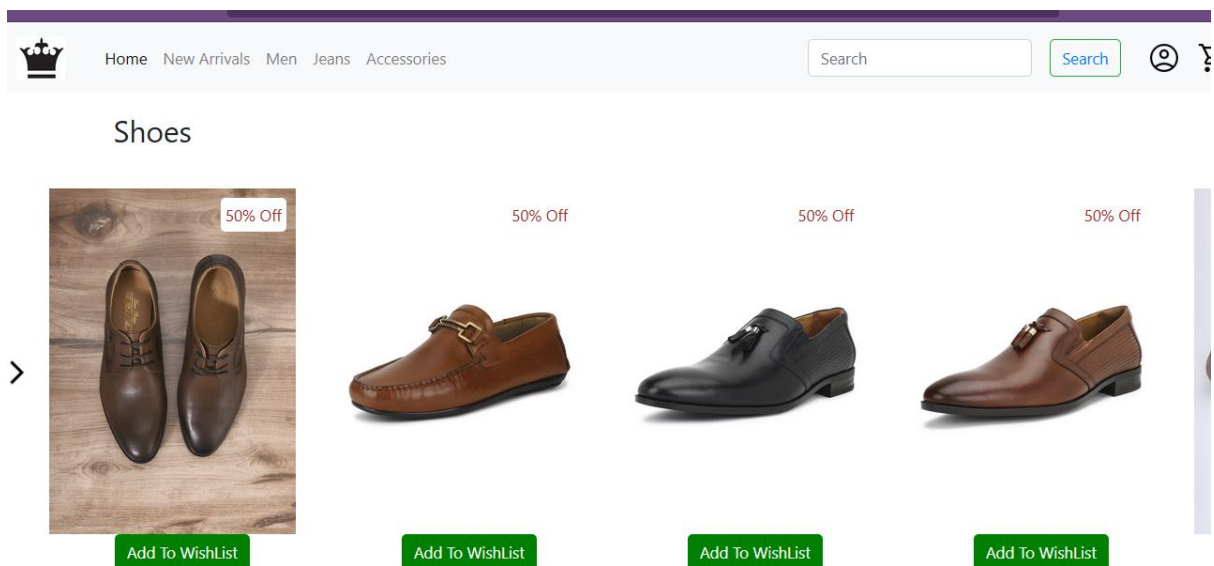

If we click on Accessories Apparels,

We will be redirecting to the accessories page, under which we have all our various accessories.

Accessories= shoe, belts, wallets, Tie, Combo Collection, Face Mask.

Let see the screen shot of it.

This was our Category under ecommerce website,

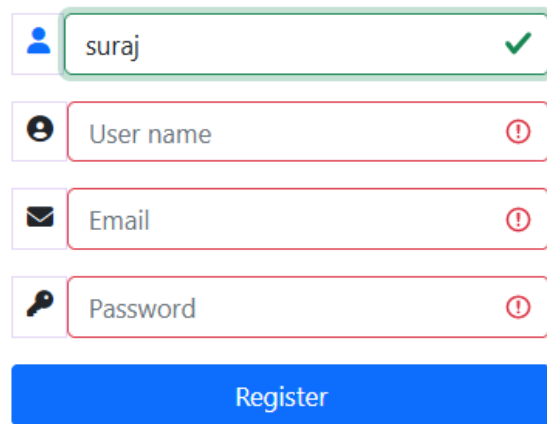

If we click on the profile logo, We will be redirected to Registration page.

A screenshot of a registration form titled "Register now". On the left, there is a placeholder image of a person's hands. The form contains four input fields: "Full name", "User name", "Email", and "Password". Each field has a corresponding icon (person, user, envelope, and key respectively). Below the fields is a blue "Register" button. Underneath the button is a horizontal line with the word "or" in the center. At the bottom is a dark grey "Sing-in" button.

If we click register without any input, then the form will not be submitted, a js validation stops this behaviour and ask user to fill out the details here.

A screenshot of the registration form showing validation errors. The title "Register now" is at the top. The four input fields ("Full name", "User name", "Email", and "Password") are each outlined with a red border and have a red exclamation mark icon in the top right corner. The blue "Register" button is at the bottom.

Register now

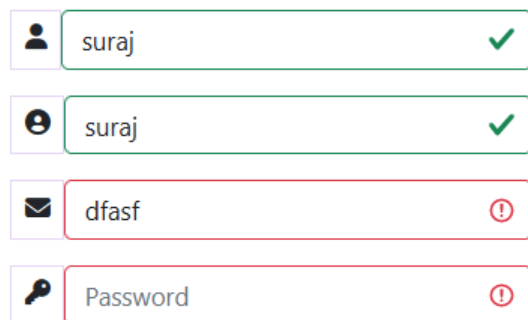

A registration form titled "Register now". It contains four input fields, each with an icon on the left and a status icon on the right. The first field, labeled "User name" with a person icon, contains the text "suraj" and has a green checkmark. The second field, labeled "Email" with an envelope icon, is empty and has a red warning icon. The third field, labeled "Password" with a key icon, is empty and has a red warning icon. Below the fields is a blue "Register" button.

Field	Value	Status
User name	suraj	Correct
Email		Incorrect
Password		Incorrect

Register

Upon writing, the input field correcting we will help user with the green color and tick mark that will indicate it is correct.

Register now

A registration form titled "Register now". It contains four input fields, each with an icon on the left and a status icon on the right. The first field, labeled "User name" with a person icon, contains the text "suraj" and has a green checkmark. The second field, labeled "User name" with a person icon, also contains the text "suraj" and has a green checkmark. The third field, labeled "Email" with an envelope icon, contains the text "dfasf" and has a red warning icon. The fourth field, labeled "Password" with a key icon, is empty and has a red warning icon. Below the fields is a blue "Register" button.

Field	Value	Status
User name	suraj	Correct
User name	suraj	Correct
Email	dfasf	Incorrect
Password		Incorrect

Register

A perfect email should be listed, with @ symbol and .com at the end of a mail address, then we can indicate the user that it has been done correctly.

Register now

	<input type="text" value="suraj"/>	✓
	<input type="text" value="suraj"/>	✓
	<input type="text" value="suraj@gmail."/>	!

Register now

	<input type="text" value="suraj"/>	✓
	<input type="text" value="suraj"/>	✓
	<input type="text" value="suraj@gmail.com"/>	✓
	<input type="password" value="....."/>	✓

Register

If we click on register, then it will be redirected to the email confirmation mail.

×

Confirm registration

We have send a Email containing your verification **code** to the provided email address. In order to complete your registration please confirm incert the verification code provided in the email.

</>

Validation code

Verify

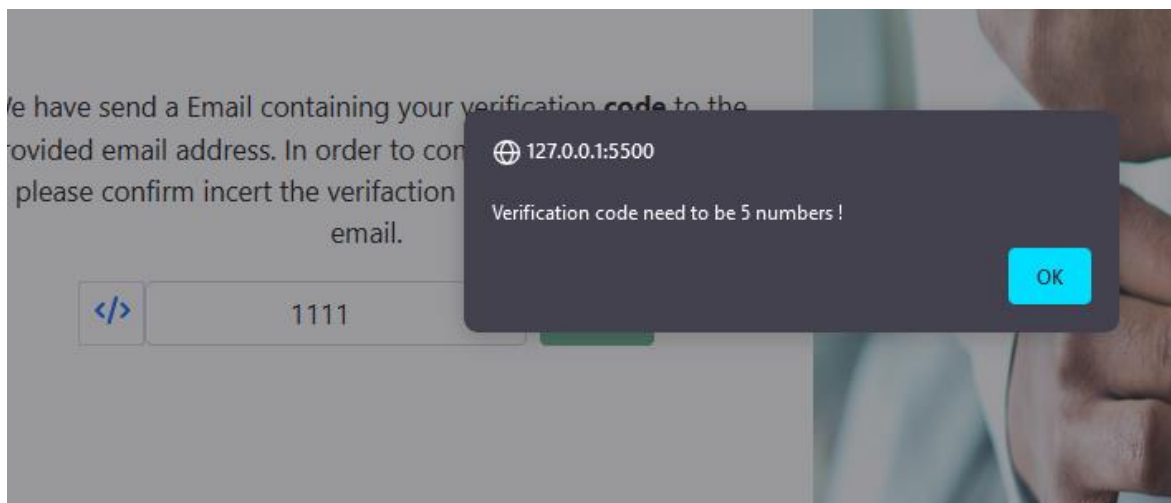

Here we need to write a proper number with 5 digit, then only we will be redirected to home page, or else we need to close the confirmation mail

A form with a code input field containing the text 'fggdsf' and a green 'Verify' button. The button is disabled, indicated by a greyed-out appearance.

As we can see that, upon writing the text, the verify button is disabled, we can verify with text, so again thank to js.

Verification code need to be of atleast 5 numbers.

provided email address. In order to complete your registration please confirm insert the verification code provided in the email.

A form with a code input field containing the text '23515' and a green 'Verify' button. The button is now enabled and has a solid green background.

The verify button is now enabled, with 5 digit number, click on it and will be going to home page.

If we click on sign in.
